FINANCE-AND THADE.

THE BANKS report a quiet Lusiness, pleaty of money, and some increase in inquiry for loans. Exchange is plenty; rates on New York par buying, 1 pre mium celling; on New Orleans ; discount buying, par selling. Gold in New York quoted 111 at noon; so little is off-ring here that brokers do not offer more than 110 for the diminutive amounts reaching their counters. The prospect for the early future is viewed as highly satisfactory, for the accounts of the harvest are excellent. The Chicago later-Ocean says: "There appears to be little doubt now but that the crops of wheat, rye and barley now harvesting are superior to those of last year." In Europe also the harvest news is good. In Eagland and throughout the continent, the wather has been favorable to secuting the grain crops in good condition; and, for the gost part, the pospects of yield are well up to an average France has harvested a fine crop of wheat, in splendid condition. Germany wheat, in splendid condition. Germany has an average yield of wheat; and the same appears to be true of South Russia; tut the German rye crop is likely to turn out light; and there is some doubt about the result of the Hungarian maize crop. Wheat, howev r, the world over, appears to have done well. Trade in a SUGAR - LOUISIANA - Firm; in hhds-sugars to have done well. Trade in a SUGAR - LOUISIANA - Firm; in hhds-sugars to have done well. has an average yield of wheat; and the appears to have done well. Trade in Europe is not in an encouraging condithou; late mell advices put a slightly stier face on the state of ousiness in the Eog'ish manufacturing and mining districts—but that is not saying much. At Manchester larger criters had been Manchester larger criters had been prime, 50858e; strictly prime, 56857e; choice, placed for Chinas aples, including jeans and drills. Continental business was als) expibiting more activity. German orders are coming round more briskly, and the same is more or less true o' orders, too, are pretty abundant. But here the favorable indications stop. O ber trades are about as backward as ever. The iron trade continues more or less no sattled by the recent heavy de-

Gold in New York closed at 111; same time last year, 113). THE PRODUCE MARKET was very quiet yesterday. It is expected that coffee will be higher from the decreased crop iu Brazil. The heat and drouth of last December prevented the development of many buds, but a considerable portion of last year's crop remains in the country, and the receipts from the first of July, 1875, to the thirtieth of June this year, are about 2,700,000 bags. The crop of 1874-75 was a very large one, of which perhaps 1 (00,000) bags laid over; high prices enabled planters to hold. For the next six months, with increased receip s, not withstanding this crop decisred wastern, 24 000 New Jersey Central, and 2500 Delaware and Hudson next six months, with increased receip s, not withstanding this crop decisred lower prices. The consumption has evidently fallen off in the United States, and the demand here has still the largest effect on prices. Corn in our market yesteriay was very quiet; 200 sacks sold at 40½; but 200 sacks of white can Express company, 85½; American suited to the miller, brought 422; ican Express company, 61; United States rest, Ashport; Jas. W. Gaff, Cincinnati. some corn that had been sold was found so inferior that it was rejected. Growers in the country will meet with nothing but less by sending such trash to mar-ket; let them feed it to hogs and they can make money by it. Outs were stagpant; good qualities are high and poor, new, wet stuff nobody wanted. Bran is suffering from the effects of forced sales, but we hear that orders for bran to arrive, at \$10, are to lot ger sought or received; a lot of 90 a ks, however, sold at that price, and we heard that \$10 50 had been offsted for more without get-ting it. A lot of 89 sacks of corn bran was off ring at \$11. Hay is in poor demand, little above common velug wanted; five car-loads of prairie found buyers at \$7 25, which is lower; 30 bales prime sold at \$14; some timothy was seeking a buyer but the off-rings for it were very low, hardly reaching \$16 A loi of baled straw was also offered but not taken, \$10 was asked. Cornmeal was very duil at \$2 50. Potatoes are quiet; little done in Tennesses; northern in store general y \$2 10; for flue Lonisville russets \$2 25 was asked. Sweet potatoes received little attention at \$1 50 by the barre'. Apples quiet at 753 to \$3, the latter for very choice. Cabbage was various in sise and freshness and sold at \$3@3 75; for some large and fresh \$4 50 was prid. Peaches were lower, choice selling at 65c, 753, and for the best 85:. ifver computint, Bropsy, Tetter, To-mors and ent thems, Worms, Gont, Ben aigi, as a Dinner Pill, and Puritying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show yet perfected. Their effects abundantly show how much they excel all ober Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humo s of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skilful physicians, most emment clergymen, and our best ettizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar-coated, they are easy to take; and being purely vegetable, they are entirely harmiess. table, they are entirely harmless. PREPARED BY
